

location

The seminar will be held in the University of Alberta Lister Conference Centre, Maple Leaf Room, on the picturesque grounds of the University of Alberta in Edmonton, Alberta, Canada. Hotel accommodation within easy walking or public transport can be found adjacent to the University and in the city centre nearby.

The weather at this time of year is usually pleasant and sunny. Average temperatures range from a high of 22° during the day to a low of 10°. Information on the University of Alberta and the School of Mining Engineering can be found at:

seminar fees

Registration Cdn\$599 (GST Incl.)
CIM member rate Cdn\$499 (GST incl.)

Delegate fees include: continental breakfast and lunch on the 23rd & 24th, and a dinner on the evening of September 23rd at a unique local restaurant. Extra proceedings are available for Cdn\$105 (GST incl.) to attendees.

Please make cheques made payable to:

University of Alberta – Mining Learning Seminar

who should attend?

This learning seminar will be of interest to all personnel involved in mine OH&S and directly impacted training, planning, maintenance and operations. Managers and supervisors will be particularly interested in the innovative technology and strategies presented by international keynote speakers and case studies from similar mining operations targeted at alleviating key concern issues.

14th Annual Industry Learning Seminar

safe healthy mining

innovations: people & practice

*technology and strategy
to make a difference today*

September 23 & 24, 2010

University of Alberta

Edmonton, Canada

The 14th Annual Industry Learning Seminar

safe healthy mining innovations: people & practice

The University of Alberta and SMART are pleased to offer a learning seminar that once again gets right to the crux of core issues as legislation and responsible OH&S practice continues to improve to protect workforce, environment and assets.

Welcome to the 14th Annual Mining Industry Learning Seminar – safe healthy mining - innovations: people & practice. With OH&S legislators making improvements to reflect issues such as whole body vibration, we as mining industry professionals need to not only be aware of, but be ready with solutions to those issues, especially as they are undoubtedly connected to our unique and individual operating conditions.

We are inviting you to not only attend and listen to the superb line-up of internationally renowned speakers, but share your experiences, challenges and "made-in-mine" innovative strategies, no matter how small, that summed together have made a safer operating environment.

John Thomas (SMART truck shovel users group (TSUG)) commented to me on a mine site tour some years ago ... "All operations make small safety improvements through unique innovations that they take for granted and no other mines get to see. If we all could share those small changes, think how much safer all our operations would be. If we see one new idea today on a site visit and put it into practice tomorrow at our own, then the safety gains far outweigh any cost of acquiring that change."

Think about this ...
What did you do to make a safe difference in your operation today? yesterday? last week? What do your people do on a daily basis, that perhaps they do without thinking, that perhaps you are not even aware of, to make safety job #1? Do you have the best in technology for monitoring your tools - but what else could that same technology be asked to do? Maybe monitor to provide a safer environment for your workforce and assets?

What can you take from this seminar and put into practice tomorrow to make a safer, healthier mining environment. Join us and find out on September 23rd and 24th while we explore **safe healthy mining ... Innovations.**

Dr. Tim Joseph, P.Eng., FCIM
Learning Seminar chair

schedule

September 23

0800	Welcome Breakfast & Registration
0845 0900	Opening remarks from Chair: Tim Joseph International Invited keynote Dr. Dan Bongers – EDAN Safe Australia: Inventor of the CRC Mining "Smart Cap"
1000	Coffee
1015 1115	Gord Winkel - Chair, SMART & Industrial Safety & Loss Management Professor, UofA – The leadership imperative for safety Ken Martens - 10 years of John T Ryan safety awards, 20 years without a LTI - 2010 John T Ryan safety award - Genessee Mine
1215	Lunch & networking
1330	Alberta OHS and Work Safe Alberta – surface mining safety moving forward - TBC
1430	Coffee
1445 1505 1525 1545	SMART mine safety leaders 1 - ArcelorMittal SMART mine safety leaders 2 - Teck Corp. SMART mine safety leaders 3 - Kinross 1st day closing remarks – Tim Joseph
1700	Networking, drinks and dinner – Murrietas on Whyte – 10612 – 82 Avenue

September 24

0815	Breakfast & welcome to day 2
0845 0900	Chair's continuing remarks: Tim Joseph Robin Sheremeta - Courageous safety leadership - Teck Resources Ltd.
1000	Coffee
1015 1115	Bernie Meegan - ergonomics, vibration and safety – Caterpillar Inc. Gary Mills – University of Waterloo – ergonomics and human factors
1215	Lunch & networking
1330	SMART mine safety leaders 4 - Barrick SMART mine safety leaders 5 - Suncor SMART mine safety leaders 6 - TSUG
1430	Coffee
1445 1600	Tim Joseph - Open forum workshop Chair's final remarks & close: Tim Joseph

sponsorship opportunities

- One way to participate in a SMART Learning Seminar is to contribute to its success as a sponsor.
- Acknowledgment for all sponsors will be made at the seminar as outlined in the adjacent panel:

Package 1 - Gold Sponsor Cdn\$5000

- 3 delegates' attendance PLUS
- executive dinner sponsorship or
- wine sponsorship or
- lunches sponsorship or
- delegate gifts

Package 2 – Silver Sponsor Cdn\$2500

- 2 delegates' attendance PLUS
- breakfasts sponsorship or
- proceedings generation

Package 3 - Bronze Sponsor Cdn\$1500

- 1 delegate attendance PLUS
- coffee breaks sponsorship

To register as a sponsor, simply fill out the form below and return to Tanya Coucke
